「Expanding the Potential of Large-scale Cohort Studies Through UK-Japan Collaboration」プログラム

MC: Fuji Nagami (Tohoku University)

17:00-17:10            Opening Remarks

Mark Palmer (Medical Research Council)

Sakamoto Shuichi (Ministry of Education, Culture, Sports, Science and Technology)

Julia Longbottom (British Ambassador to Japan) (video message)

Chair: Sir Rory Collins (UK Biobank)

17:10-17:40            Naomi Allen and Ben Lacey (UK Biobank)

UK Biobank: an international resource for studying the determinants of disease,

17:40-18:10            Shinichi Kuriyama (Tohoku University)

Strategic Design, Progress and Perspective of ToMMo's cohort studies

18:10-18:15            Q&A

Chair: Masayuki Yamamoto (Tohoku University)

18:15-18:45            Mark Effingham (UK Biobank)

UK Biobank: whole genome sequencing and public/private partnership

18:45-19:15            Kengo Kinoshita (Tohoku University)

Current status of genome and omics study and future direction by ToMMo

19:15-19:20            Q&A

Chair: Rory Collins (UK Biobank)

19:20-19:50            Naomi Allen (UK Biobank)

UK Biobank: future enhancements and extending sample assays

19:50-20:20            Yoko Izumi (Tohoku University)

Progress of ToMMo Integrated Biobank and related studies

20:20-20:25            Q&A

20:25-20:30            Closing remarks

Masayuki Yamamoto (Tohoku University)

Sir Rory Collins (UK Biobank)
